OOP Homework User Manual

Welcome to the **Dungeon Adventure Game**! In this text-based RPG, you will navigate through a series of rooms, battle enemies, solve puzzles, and collect treasures to escape the dungeon. Below is a guide to help you understand how to play the game.

Objective

Your goal is to escape the dungeon by navigating through rooms, defeating enemies, and solving challenges. You must defeat the final boss in the last room to unlock the exit.

How to Play

1. Starting the Game

- When the game starts, you will be placed in the first room of the dungeon.
- You will see a description of the room and any challenges or items present.

2. Room Features

Each room may contain one or more of the following:

- **Enemies:** You must defeat enemies to proceed. Some rooms have multiple enemies, and you will fight them one at a time.
- **Treasures:** Collect treasures to gain health, attack power, or other benefits.
- **Weapons:** Pick up weapons to increase your attack power.
- **NPCs:** Solve riddles posed by NPCs to gain rewards or progress.
- **Boss:** The final room contains a boss enemy. Defeat it to escape the dungeon.

3. Player Actions

In each room, you can perform the following actions:

- **Attack Enemies:** When you encounter an enemy, you can choose to attack or retreat.
 - Type a to attack.
 - Type r to retreat (if you are not confident in winning the battle).
- **Collect Treasures:** If a room contains treasure, you can choose to pick it up.
 - Type y to collect the treasure.
 - Type n to leave it.

- **Collect Weapons:** If a room contains a weapon, you can pick it up to increase your attack power.
 - Type y to collect the weapon.
 - Type n to leave it.
- **Solve Riddles:** If you encounter an NPC, you must solve their riddle to proceed.
 - Type your answer to the riddle when prompted.
- **Move to the Next Room:** After completing the room's challenges, you can move to the next room or backtrack to a previous room.
 - Type n to move to the next room.
 - Type b to backtrack to the previous room.

4. Player Stats

- **Health:** Your health points (HP). If your health reaches 0, the game ends.
- **Attack Power:** Determines how much damage you deal to enemies.
- **Moves Left:** The number of moves you have remaining. If you run out of moves, the game ends.
- **Inventory:** A list of items you have collected (e.g., treasures, weapons).

5. Winning the Game

- To win, you must reach the final room, defeat the boss enemy, and escape the dungeon.
- If you defeat the boss and have moves and health remaining, you win the game!

Good Luck!

The dungeon is full of dangers and mysteries. Use your wits, collect powerful items, and defeat your enemies to escape. Good luck, adventurer
